Cynthia thought perhaps you would rather not have your letter published. You stated your problem so clearly that it is easy to see how perplexed you must be. Considering all the circumstances you mentioned, the best way to solve the difficulty would be to tell the girl frankly how you feel, but do not bind her to an engagement. As you say you are very young it would not be fair to ask her to wait for you so long. But it will not hurt to give her the chance to. If she feels as you do. You look at the matter so sanely that Cynthia is sure you will do the square thing and not expect too much or make the girl unhappy if you find that she does not care for you. But good luck to you!

Not long ago I became acquainted with a very nice young man. This young man has blonde hair and so have I. I have not been in his company long enough to find out whether the saying, two persons of the same complexion do not get along nicely, is true. Now, Cynthia, I ask your opinion. Would it be proper to ask this young man if he is engaged? Would it be all right to ask him to come see me some time? Would you take it for granted that a fellow wants you to write to him if he gave you his address?
